IL POTERE DELLA GAMMA

**UN'AZIENDA CHE CRESCE E SI TRASFORMA
NEL TEMPO PER DIVENTARE UN VERO
SPECIALISTA NEL SETTORE SOSPENSIONI**

Siamo un'azienda italiana con una grande storia nel mercato Aftermarket, il fondatore Alfeo Moret, la creò negli anni del boom della motorizzazione italiana, gli anni della "Fiat Cinquecento", dell'Alfa, delle Lancia e dei camion OM.

Oggi 2022, realizziamo 49 anni di attività, agli inizi erano anni in cui bisognava essere bravi a "ricostruire" gli ammortizzatori. A furia di smontare e ricostruire abbiamo messo le basi concrete per imparare a produrli.

L'esperienza si è trasformata progressivamente in una vastissima gamma di modelli, capace oggi di realizzare e gestire a magazzino oltre 4500 codici diversi di ammortizzatori per auto, in pronta consegna, capaci di soddisfare l'esigenza di allestimento di quasi 2.000 modelli di auto.

D.S.R.A.V.

IS VITAL!

Una **GAMMA COMPLETA**

Con "VITAL suspensions" portiamo a coronamento tutto il lavoro svolto negli ultimi 49 anni dal fondatore; dopo 49 anni di intenso miglioramento produttivo, siamo in grado di offrire, agli operatori professionali, una gamma molto articolata e soprattutto reale, pronta per arrivare a destinazione.

Il grande e moderno magazzino di Vittorio Veneto (TV) in prossimità dell'A27, in un'area dotata anche di porto doganale ci consente velocità di consegna in tutta Europa e nel mondo, dove siamo presenti con una rete capillare di validi partner distributivi.

Da considerare che la nostra produzione oltre agli ammortizzatori singoli, propone al mercato la variante a Set, che consiste nei 4 ammortizzatori per auto in un'unica scatola. Tale variante viene fornita completa di accessori come tamponi, soffietti e supporti gomma e metallo per ottenere l'equipaggiamento completo per affrontare qualsiasi condizione di sostituzione parziale o integrale.

A complete **WIDE RANGE**

With "VITAL suspensions" we have added the crowning glory to all the 49 years of effort since the day we were founded; after 49 years of intense production enhancements, we are in a position to offer automotive professionals an extremely comprehensive and above all genuine range that is ready to be transported to wherever it needs to be.

Our huge and modern warehouse in Vittorio Veneto (TV), close to the A27 motorway and in an area that also has a customs port, enables us to send items quickly throughout Europe and the world, where we have a wide network of highly competent distribution partners.

Our offering doesn't just end with single shock absorbers either, it also includes the Set variant, which consists of 4 car shock absorbers in a single box. This variant comes with a complete set of accessories such as bumpers, bellows and rubber and metal mounts to deal with any possible shock absorber replacement requirement, be it partial or complete.

An **UNBEATABLE RANGE**

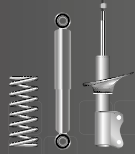

We are an Italian company with many years' experience in the automotive aftermarket.

Its founder Alfeo Moret, created the company during the boom years of the Italian motor industry, those that saw the "Fiat Cinquecento", the Alfa, the Lancia and OM trucks.

Today, in 2022, we are marking 49 years in the industry, the early part of which was when it was necessary to be able to "rebuild" shock absorbers. Through consistently disassembling and rebuilding them we laid the concrete foundations for learning how to make them.

This experience has been steadily transformed into a vast array of models, resulting in a warehouse holding over 4500 different codes of car shock absorbers, ready for immediate delivery and able to satisfy the set-up requirements of almost 2,000 models of car.

GARANZIA DEL PRODOTTO

L'intera gamma **VITAL SUSPENSIONS** è offerta con una garanzia di due anni. Tale garanzia si ritiene subordinata alle condizioni, elencate di seguito, che l'acquirente è tenuto a verificare e rispettare durante l'intero periodo garantito.

CONDIZIONI DI GARANZIA: La garanzia di due anni applicata a tutti gli ammortizzatori copre esclusivamente le non conformità, verificate sugli ammortizzatori stessi, relativamente a vizi di fabbricazione e di funzionamento.

La garanzia del prodotto, in quanto tale, vale esclusivamente nei termini di sostituzione gratuita del materiale riconosciuto difettoso.

Tale garanzia inoltre si ritiene valida per il solo prodotto riconosciuto non conforme, pertanto non prevede estensioni a coppie o insiemi di ammortizzatori, anche se installati sul medesimo veicolo.

Non sussistono risarcimenti, o pretese di qualsiasi natura, ulteriori a quelle precedentemente esposte; anche qualora direttamente o indirettamente collegate alla non conformità del prodotto.

La garanzia non comprende :

- La normale usura dell'ammortizzatore.
- I danni derivanti da incidenti, di qualsivoglia natura, subiti dal veicolo.
- I danni provocati all'ammortizzatore da un montaggio scorretto o dall'impiego di attrezzature non idonee (es. stelo rovinato dalle pinze).
- I danni provocati dall'utilizzo dell'ammortizzatore su veicoli diversi da quelli per i quali è stato realizzato, in conformità a quanto riportato sullo stesso catalogo corrente.
- I danni causati da manomissioni di qualsiasi natura apportate all'ammortizzatore.
- Le non conformità dovute all'impiego dell'ammortizzatore su sistemi di sospensione speciali per i quali non è previsto il suo impiego (sospensioni autolivellanti, sospensioni regolabili elettronicamente, ecc.).
- I danni arrecati all'ammortizzatore dall'utilizzo del veicolo in competizioni automobilistiche di qualsiasi natura.
- I danni causati all'ammortizzatore dal montaggio su sospensioni con caratteristiche e componenti diversi dall'originale, quali ad esempio molle tagliate, tamponi e parapolvere modificati o eliminati, ecc.
- Eventuali montaggi abbinati a molle di assetto sportivo, eccezion fatta per le molle di assetto di nostra produzione e per i pacchetti sportivi forniti dalla casa produttrice.
- I danni arrecati da manutenzione scorretta o insufficiente del mezzo.

RICHIESTA DI GARANZIA: La richiesta di garanzia del prodotto deve essere presentata al concessionario presso il quale è stato acquistato.

Il concessionario stesso provvederà direttamente, dopo l'accertamento della non conformità, alla sostituzione del materiale difettoso.

Al concessionario dovranno essere consegnati tutti i dati indispensabili alla verifica della garanzia, e più precisamente :

- Estremi dell'acquirente o dell'officina di montaggio.
- Codice dell'articolo non conforme.
- Quantità non conforme.
- Data di acquisto e di montaggio.
- Dati di riconoscimento del veicolo.
- Condizione del veicolo al momento del montaggio.
- Descrizione dettagliata della non conformità.

Il concessionario successivamente avrà cura di trasmettere i suddetti dati all'ufficio di Controllo Qualità del produttore il quale avvierà il processo di verifica.

Dopo l'acquisizione dei dati forniti dal cliente verrà data l'autorizzazione al reso del materiale difettoso.

Il prodotto ritenuto non conforme dovrà quindi pervenire presso di noi, in porto franco, corredato di documento in conto garanzia (qualora il materiale non fosse spedito dal distributore la bolla dovrà recare come intestatario il distributore stesso).

Sarà respinto tutto il materiale spedito senza il benestare a procedere da parte dell'azienda.

Il ripristino, la sostituzione o l'accredito del prodotto in garanzia sarà fatto solo dopo l'accertamento della non conformità da parte del personale tecnico addetto al controllo qualità, nel rispetto delle condizioni sopra elencate. Lo stesso personale sarà a disposizione del cliente per ogni chiarimento in merito.

La possibilità di sostituzione immediata del materiale ritenuto non conforme, al fine di evitare il fermo del veicolo, è prerogativa esclusiva del distributore, il quale può eventualmente adottarla a sua discrezione, rimanendo tuttavia non vincolata alle condizioni generali di garanzia del prodotto.

Per conoscenza segnaliamo che tutti i reclami ed i certificati di garanzia verranno archiviati, unitamente ai dati a nostra disposizione (cliente, non conformità, riferimenti produttivi, ecc.), per disporne in qualunque momento e per verificare l'utilità di azioni correttive eventualmente necessarie su alcuni prodotti.

Tutti i dati dei clienti verranno comunque custoditi ed elaborati esclusivamente per attività informatiche e di ricerca interne all'azienda, adempimenti di legge ed eventuale invio di materiale informativo-promozionale; in conformità a quanto richiesto dalla legge 675/96 e D.L.196/2003 sulla tutela della privacy.

PARAOLIO SCOPPIATO

Ammortizzatore che presenta una slabbratura della guarnizione di tenuta con conseguente perdita di olio e quindi rottura dell'ammortizzatore, dovuta alla NON sostituzione del tampone di fine corsa deteriorato e quindi al non rispetto del suo corretto funzionamento come assorbitore d'urti.

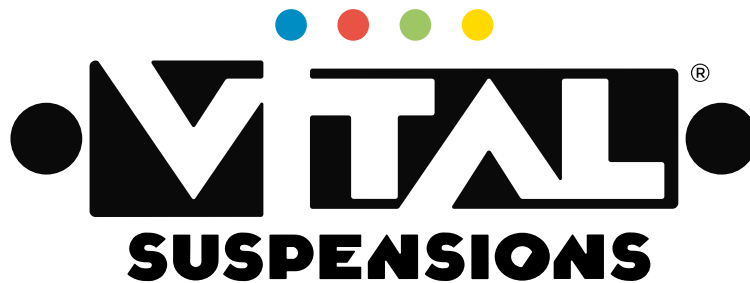

A shock absorber with burring on the gasket and consequent oil leak, which would lead to the shock absorber breaking. This is caused by failure to replace the worn rubber rebound bumper, which is unable to absorb any impact.

SFONDAMENTO DI FINECORSA

Sfondamento della valvola di fondo dell'ammortizzatore e del pistone a causa del continuo lavoro a fine corsa inferiore dell'ammortizzatore causato da percorrenza in strade dissestate e da continui dossi rompi velocità con conseguente deterioramento del tampone di fine corsa e del cedimento progressivo della molla di sospensione. Risultato perdita olio, effetto elastico e non funzionamento dell'ammortizzatore.

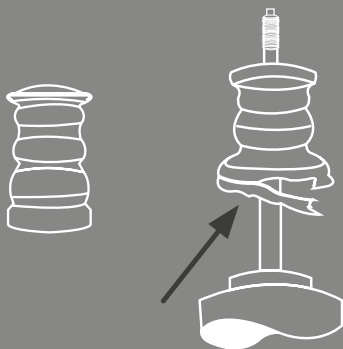

A smashed bottom valve and piston rod due to continued working of the shock absorber at the bottom, caused by uneven road surfaces or speed humps, which damage the rubber rebound bumper and gradually cause the suspension spring to give way. The result is leaking oil, reduced elastic effect and ineffective shock absorber.

PRINCIPALI CAUSE DI DANNEGGIAMENTO NON IMPUTABILI A DIFETTOSITÀ DEL PRODOTTO

PRINCIPLE DEFECTS DUE TO IMPROPER HANDLING OF PRODCUT

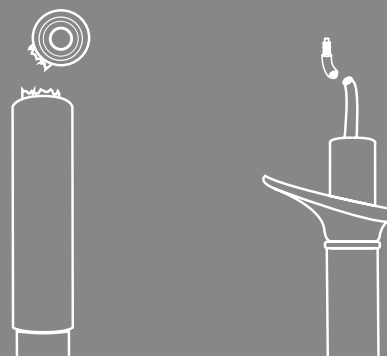

ROTTURA TAMPONE DI FINECORSA

Ammortizzatore danneggiato per usura del tampone di fine corsa, dove soprattutto con il nuovo e massiccio impiego da parte dei costruttori del poliuretano microcellulare che evita in parte anche il sovraccarico del mezzo, il tampone si deteriora rapidamente sia come sfrangiatura che come rigidità con conseguente rottura dell'ammortizzatore per urti di fine corsa inferiore.

A shock absorber damaged by a worn rubber rebound bumper due to the massive use by manufacturers of microcell polyurethane to make the bumpers, which avoid part of the shock absorber overload. With excessive work the bumper deteriorates, disintegrates and becomes hard, and therefore the shock absorber breaks due to closing impact.

ROTTURA OCCHIELLI E PERNI

Ammortizzatore che presenta il distacco dell'occhiello (o del perno) dovuto ad un urto, o nel caso del perno, al non corretto montaggio con il giusto serraggio di coppia eseguito con le attrezzature non corrette, utilizzando la pistola pneumatica anziché la chiave dinamometrica. Il distacco dell'occhiello può avvenire anche nel caso in cui il fissaggio dell'ammortizzatore sia stato fatto ancora a veicolo sollevato, anziché con le ruote appoggiate al terreno e quindi con l'ammortizzatore nella corretta posizione di lavoro.

A shock absorber with a broken grommet (or pin), caused by a collision or incorrectly mounting the pin using the wrong tools (e.g. pneumatic screwdriver instead of a torque wrench). The grommet could also detach when the shock absorber has been mounted with the vehicle lifted off the ground and not with the wheels on the ground, which is the correct position to work the shock absorber.

PRINCIPALI CAUSE DI DANNEGGIAMENTO NON IMPUTABILI A DIFETTOSITÀ DEL PRODOTTO
PRINCIPLE DEFECTS DUE TO IMPROPER HANDLING OF PRODCUT

FILETTATURA ROVINATA

Ammortizzatore che presenta il filetto rovinato, in quanto nel montaggio non è stato utilizzato il KIT di viti corredato, bensì un dado di passo diverso da quello fornito, e soprattutto perché si è utilizzato la pistola pneumatica e non invece la chiave dinamometrica.

A shock absorber with ruined thread, due to being mounted without using the supplied screws, but just a nut with a different pitch to the one supplied. Using a pneumatic screwdriver instead of a torque wrench can also cause this damage.

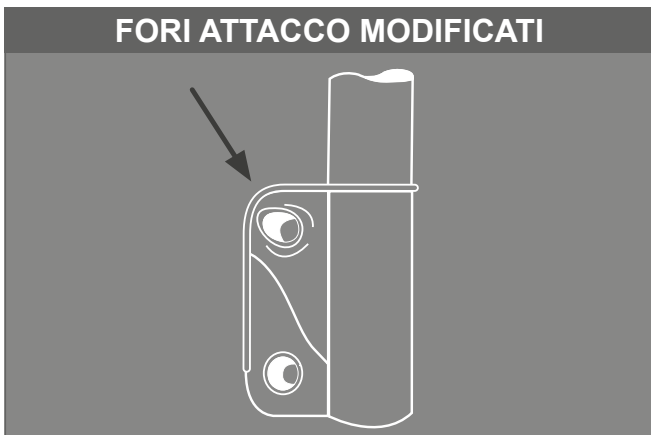

AMMORTIZZATORE STORTO

Ammortizzatore che si presenta piegato, o solo con l'albero storto, oppure il corpo piegato; normalmente questo avviene nel caso dell'albero storto, quando il veicolo urta uno scalino nella strada, mentre la piegatura del corpo dell'ammortizzatore nel caso di incidente più o meno marcato.

A shock absorber with twisted bracket, body or pin. If the piston is twisted it is normally due to impact with a kerb, while a twisted body is caused by a more serious accident.

FORI ATTACCO MODIFICATI

Ammortizzatore che presenta una allargatura manuale del foro di attacco al mozzo ruota in fase di controllo della geometria del veicolo, dovuto principalmente a fattori accidentali che il veicolo ha subito sulla strada, come incidenti e urti vari con conseguente spostamento degli assi di camber.

The shock absorber has a manual widening of the wheel hub attachment hole during alignment, which is caused by road accidents that cause the camber axle to move.

STELO ROVINATO E ARRUGGINITO

Superficie cromata dello stelo rovinata da ammaccature, botte e ruggine con conseguente perdita di olio attraverso il paraolio, difetto questo dovuto nella fase di montaggio dal non corretto fissaggio e protezione del soffietto parapolvere e del tampone di fine corsa.

The piston rod chrome-plated surface is ruined by dents, knocks and rust, with oil leaking through the oil retainer. This fault is caused by incorrectly mounting the rubber rebound bumper and the dust cover.

ALBERO ROVINATO CON LA PINZA

Ammortizzatore che presenta l'albero cromato con evidenti segni di graffiatura della superficie cromata, con conseguente perdita di olio e gas ogni qual volta la parte danneggiata entra nella guarnizione a tenuta di gomma. Danno causato dal non corretto impiego di utensili idonei al montaggio degli ammortizzatori.

A shock absorber with clear signs of scratching on the chrome plated surface of the piston rod, causing oil and gas leaks each time the damaged part enters the gasket. Damage caused by using incorrect tools to mount the shock absorber.

ALBERO USURATO

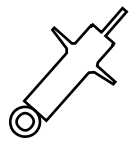

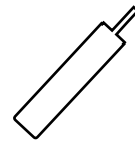

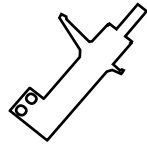

Ammortizzatore che presenta l'albero cromato danneggiato solo da un lato con evidente zona ovale arrugginita o quantomeno molto lucida e quindi consumata rispetto al resto della cromatura. Pistone quindi sottoposto ad un grosso carico laterale dovuto al non corretto serraggio con ruote a terra e soprattutto al non corretto camber del veicolo.

A shock absorber with the piston rod damaged on just one side, with a clear rusty or shiny oval patch and extensive wear with respect to the rest. The piston rod is subject to heavy side load, caused by incorrect mounting of the wheels on the ground and incorrect alignment.
